

3. Data Control Language:

DCL is used to control the data flow between the users.

Statements in DCL:

1. Grant
2. Revoke

1. Grant: This statement is used to give permission to the users.

Syntax: GRANT SQL_STATEMENT
ON TABLE_NAME
TO USER_NAME;

2. Revoke: This statement is used to take back the permission from the users.

Syntax: REVOKE SQL_STATEMENT
ON TABLE_NAME
FROM USER_NAME;
